

Caviar Hair Care Kit 1070 ml. 36.181 fl.oz
Safety Data Sheet

**1. Identification of the chemical substance, product, or mixture
And of the supplier or manufacturer.**

Type of product Cosmetic/ Hair care

Name of the Product: **Caviar Hair Care Kit**

CAS Number: N/A

Recommended Use: Daily use cosmetic product. Suitable for all hair types.
Provides complete hydration

Step 1 Caviar Professional Hydrating Shampoo 500 mL.
16.9 fl.oz. Page 2

Step 2 Caviar Professional Hydrating Bi-phase 500 mL.
16.9 fl.oz. Page 11

Step 3 Caviar Professional Hydrating Serum 70 mL.
2.36 fl.oz Page 20

Manufactured by: GRUPO RODEH S.A. DE C.V.

Address: Acueducto del Alto Lerma No.14 Col Acueducto. San Pedro
Cholula, C.P. 52757. Estado de México. Mexico.

Hydrating Shampoo 500 mL. 16.9 fl.oz Safety Data Sheet

1. Identification of the chemical substance, product, or mixture And of the supplier or manufacturer.

Type of product Cosmetic/ Hair care

Name of the Product: Caviar Professional Hydrating Shampoo 500 mL. 16.9 fl.oz.

CAS Number: N/A

Recommended Use: Daily use cosmetic product. Suitable for all hair types. Provides complete hydration while preserving the full intensity of color in natural or dyed hair. Free from sulfates and parabens.

Manufactured by: GRUPO RODEH S.A. DE C.V.

Address: Acueducto del Alto Lerma No.14 Col Acueducto. San Pedro Cholula, C.P. 52757. Estado de México. Mexico.

2. Composition / Information on ingredients

CHEMICAL IDENTITY OF THE SUBSTANCE	PRODUCT ID
Water	No. CAS: 7732-18-5
Disodium Laureth Sulfosuccinate	No. CAS: 39354-45-5
Sodium laury amphotoacetate	No. CAS: 68608-66-2
Cocamidopropyl betaine	No. CAS: 66455-29-6
Fragrance	No available data
Acrylates Copolymer	No available data
Glycol distearate / Laureth 4	No available data
Tri (2-Hidroxietil) Amine	No. CAS: 102-71-6 LMPE-CT ND
Oryza sativa (Rice) bran oil, Caviar Extract, Tocopherol	No. CAS: 68553-81-1 / NA / 119-13-1 No. EINECS: 68553-81-1 / NA / 204-299-0
Polyquaternium-39	No. CAS: 25136-75-8.
Tetrasodium EDTA	(N° CAS) 64-02-8 (N° CE) 200-573-9 (N° INDEX) 607-428-00-2 (REACH-no) 01-2119486762-27
Blue 1 (C.I. 42090)	N.° CE : 223-339-8 NUMBER-REACH : 01-2120740569-45-XXXX N.° CAS: 3844-45-9
Yellow 5 (C.I 19140)	No available data
Hydrolyzed Wheat Protein	N.° CAS: 100209-45-8 EINECS: 309-353-8
Sodium benzoate	N.° CAS : 0000532-32-1
Silicone Quaternium-17 (and) Laureth-9 (and) Citric Acid	No available data
Citric acid	No. CAS 77-92-9
PEG-150 Pentaerythrityl Tetrastearate (and) PPG-2 Hydroxyethyl Cocamide	No available data
Glyceryl Erucate (and) PEG-12 Oleate	No available data

3. Hazard(s) Identification

3.1 Hazard Classification:

The components are not hazardous or are below the required disclosure limits.

4. First-Aid Measures

- Inhalation** Move to fresh air. Call a doctor if symptoms appear or persist.
- Eye Contact** Immediately rinse eyes with plenty of water for at least 15 minutes. Remove contact lenses if present and if easily removable. Continue rinsing. Immediately call a doctor or poison control center.
- Skin Contact** Wash with plenty of soap and water. In case of skin irritation: Consult a doctor. Remove contaminated clothing and wash before reuse.
- Ingestion** Immediately call a doctor or poison control center. Rinse mouth. DO NOT induce vomiting. If vomiting occurs, keep head below the stomach to prevent lung aspiration.

5. Fire-Fighting Measure

Appropriate extinguishing measures: Water mist, Chemical foam, CO2, Dry Chemical Powder, Water.

Inappropriate extinguishing media: No data available.

Recommendations for firefighting personnel: Evacuate the area, approach fire from upwind and fight from a safe distance. Use water spray to cool containers and structures exposed to fire. To protect personnel, use water as a wash to remove spills from the ignition source.

Appropriate extinguishing media: Dry water, foam, dry powder, or carbon dioxide.
Inappropriate extinguishing media: Avoid direct water streams from hoses, as it may spread and extend the fire.

Specific hazards of hazardous chemicals or mixtures: Flammable liquid. Hazardous Decomposition Products: formaldehyde, carbon oxides, and silica.

Recommendations for firefighting personnel

Special firefighting measures: Use dry water to cool containers.

Special protective equipment for firefighting personnel: Firefighters should use standard protective equipment and a positive pressure self-contained breathing apparatus (SCBA).

Flammable liquid.

Hazardous Decomposition Products: formaldehyde, carbon oxides, and silica.

6. Accidental Release Measures

- 1.** Personal precautions, protective equipment, and emergency procedures.
Use personal protective equipment. Refer to Section 8 of the SDS for personal protective equipment.
- 2.** Environmental precautions
Do not pour into drains, sewers, or natural waters.
- 3.** Methods and materials for containment and cleaning of spills or leaks.
Absorb with sand or other inert absorbent and place in containers.
- 4.** Notification procedures
Caution: Contaminated surfaces may become slippery. Dispose of residue at an appropriate treatment and disposal facility in accordance with relevant laws and regulations and product characteristics at the time of disposal. Contaminated packages should be as empty as possible.

7. HANDLING AND STORAGE

- 1. Precautions for safe handling**
Handle in accordance with good hygiene and safety practices. Ensure adequate ventilation.
- 2. Conditions for safe storage**
Store in a clean, dry and well-ventilated area. Protect from sunlight. Keep the containers closed. Store in the original containers or stainless steel tanks at a temperature between 5 and 40°C. Transport lines, valves, etc. will be built with stainless steel. Avoid storage for prolonged periods of time.

8. Exposure Controls/Personal Protection

8.1. Eye protection

There should be adequate general ventilation (typically 10 air changes per hour). The frequency of air renewal should correspond to the conditions. Eye wash facilities and emergency showers should be available when handling this product..

8.2 Skin protection

Use a PVC apron and safety boots/shoes.

8.3 Hand protection

Use PVC gloves

8.4 Respiratory protection

In case of emergency or contact with high concentrations, use autonomous masks or with an air supply. It is recommended to use a mask with organic-vapor filter in case of exposure to vapor/aerosol.

9. Physical and Chemical Properties.

Appearance, Physical Slightly pearly viscous liquid

Odor Characteristic Floral.

Color Turquoise

Density 1.02 g/mL 20°C

pH 5.5

Viscosity 8,000 – 12,000 cp

Melting point/freezing point No data available

Boiling point Undetermined

Flash point No data available

Flammability No data available

Solubility No data available

10. Stability and Reactivity

10.1 Chemical stability

The product is stable under normal conditions of use and storage.

10.2. Reactivity

No expected hazardous reactivity.

10.3 Conditions to avoid

High temperatures, sources of ignition.

10.4. Incompatible materials

Strong oxidizing agents, bases and acids.

10.5. Hazardous decomposition products

After decomposition, this product may emit sulfur dioxide and sulfur oxides.

11. Toxicological information

Information on toxicological effects

Acute toxicity: Not reported.

Local effects: Not reported.

Chronic/long-term toxicity: Not reported.

12. Ecological information

1. **Toxicity:** No ecological information available
. for this product.
2. **Persistence and degradability:** No data available.
3. **Bioaccumulation potential:** . . No data available.
4. **Soil adsorption:** No data available.
5. **Other adverse effects:** No data available.

13. Disposal Considerations

- Disposal methods:** Treatment, storage, transportation and elimination must be performed in accordance with federal/state/province and local regulations. Dispose of containers in accordance with local, regional, national and international regulations.
- Hazardous residue code** Disposal code must be attributed in agreement between the user, the manufacturer and the residue elimination facility.
- Residue remains / Unused product** Eliminate by observing current local regulations. Empty containers or coatings may contain product residue. This material as its container must be disposed of in a safe manner (See: Disposal methods)
- Contaminated container:** Empty containers should be moved to an approved disposal facility for recycling or elimination. Since empty containers can contain traces of the product, observe the warnings signaled on the label after emptying a container.

14. Transport Information

- UN Number:** Not subject to transport regulations.
- Official transport designation:** Not subject to transport regulations.
- Packaging group:** Not subject to transport regulations.
- Environmental hazard:** Not subject to transport regulations.
- User precautions:** Not subject to transport regulations.

Hazard risk class for compatibility and segregation for storage and transport (NOM-010-SCT2/2009). Class or risk division: Not applicable.

15. Regulatory Information

This Safety Data Sheet has been elaborated in agreement with the Mexican Official Regulation (NOM):
NOM-018-STPS-2015

16. Other Information

The information is considered accurate but not exhaustive and will be used solely as guidance. The information is based on the current knowledge of the chemical substance or mixture and is applicable to appropriate safety precautions for the product.

Safety Data Sheet Disclaimer:

Safety Data Sheet Disclaimer:

The information provided in this Safety Data Sheet (SDS) is based on data available to us regarding the product at the time of preparation. However, it does not encompass all possible situations or conditions of use. The user of this product is responsible for ensuring that it is used properly and in accordance with applicable regulations and guidelines.

This SDS is intended to provide guidance on the safe handling, storage, disposal, and transportation of the product. It does not replace the need for proper training, precautions, or personal protective equipment when handling the product.

The user assumes all risks associated with the use, storage, or disposal of this product. We disclaim any liability for damages or injuries resulting from the use of this product in a manner inconsistent with this SDS or the product labeling.

It is important to review the product labeling and any applicable regulations before using this product. If further information or clarification is needed, please contact us or consult a qualified professional.

Bi-phase 500 mL. 16.9 fl.oz Safety Data Sheet

1. Identification of the chemical substance, product, or mixture And of the supplier or manufacturer.

Type of product Cosmetic/ Hair care

Name of the Product: Caviar Professional Hydrating Bi-phase 500 mL. 16.9 fl.oz.

CAS Number: N/A

Recommended Use: Cosmetic product for daily use. Suitable for all hair types. Facilitates styling, covers the hair, protecting it from extreme damage factors, improves softness, shine, and control.

Manufactured by: GRUPO RODEH S.A. DE C.V.

Address: Acueducto del Alto Lerma No.14 Col Acueducto. San Pedro Cholula, C.P. 52757. Estado de México. Mexico.

2. Composition / Information on ingredients

CHEMICAL IDENTITY OF THE SUBSTANCE	PRODUCT ID
Water	No. CAS: 7732-18-5
Ciclopentasiloxane	No. CAS: 541-02-6 EINECS N° 208-764-9
Ciclopentasiloxane /Dimethicone	No. CAS: 541-02-6 70131-67-8
Cetyl trimethyl ammonium chloride	No. CAS: 112-02-7
Fragrance	No available data
Sodium Chloride	No. CAS: 7647-14-5
Olive Oil PEG-7 Esters	No available data
imidazolidine-2,4-dione	No. CAS: 461-72-3
Oryza sativa (Rice) bran oil, Caviar Extract, Tocopherol	No. CAS: 68553-81-1 / NA / 119-13-1 No. EINECS: 68553-81-1 / NA / 204-299-0
DMDM Hidantoin	No. CAS: 302776-68-7 No. CAS: 5466-77-3
Tetrasodium ethylenediaminetetraacetate	(N° CAS) 64-02-8 (N° CE) 200-573-9 (Index Number) 607-428-00-2 (REACH-no) 01-2119486762-27
Blue 1 (C.I. 42090)	N.º CE : 223-339-8 Número-REACH : 01-2120740569-45-XXXX N.º CAS: 3844-45-9
Yellow 5 (C.I. 19140)	No available data
Citric acid	No. CAS 77-92-9

3. Hazard(s) Identification

3.1 Hazard Classification:
Physical hazards: Flammable liquids, category 4

3.2 Signal elements, including precautionary statements and pictograms.

Hazard symbol: No symbol

Warning word: Caution

Hazard statement: Combustible liquid

Response: No data available

3.3 Precautionary statements.

Prevention: Keep away from heat, hot surfaces, sparks, open flames, and any other source of ignition. No smoking.

Response: Fight fire from a reasonable distance, taking the usual precautions.

4. First-Aid Measures

Inhalation Move to fresh air. Call a doctor if symptoms appear or persist.

Eye Contact Immediately rinse eyes with plenty of water for at least 15 minutes. Remove contact lenses if present and if easily removable. Continue rinsing. Immediately call a doctor or poison control center.

Skin Contact Wash with plenty of soap and water. In case of skin irritation: Consult a doctor. Remove contaminated clothing and wash before reuse.

Ingestion Immediately call a doctor or poison control center. Rinse mouth. DO NOT induce vomiting. If vomiting occurs, keep head below the stomach to prevent lung aspiration.

5. Fire-Fighting Measure

Appropriate extinguishing measures: Water mist, Chemical foam, CO₂, Dry Chemical Powder, Water.

Inappropriate extinguishing media: No data available.

Recommendations for firefighting personnel: Evacuate the area, approach fire from upwind and fight from a safe distance. Use water spray to cool containers and structures exposed to fire. To protect personnel, use water as a wash to remove spills from the ignition source.

Appropriate extinguishing media: Dry water, foam, dry powder, or carbon dioxide.
Inappropriate extinguishing media: Avoid direct water streams from hoses, as it may spread and extend the fire.

Specific hazards of hazardous chemicals or mixtures: Flammable liquid. Hazardous Decomposition Products: formaldehyde, carbon oxides, and silica.

Recommendations for firefighting personnel

Special firefighting measures: Use dry water to cool containers.

Special protective equipment for firefighting personnel: Firefighters should use standard protective equipment and a positive pressure self-contained breathing apparatus (SCBA).

Flammable liquid.

Hazardous Decomposition Products: formaldehyde, carbon oxides, and silica.

6. Accidental Release Measures

- 1. Personal precautions, protective equipment, and emergency procedures.**
Use personal protective equipment. Refer to Section 8 of the SDS for personal protective equipment.
- 2. Environmental precautions**
Do not pour into drains, sewers, or natural waters.
- 3. Methods and materials for containment and cleaning of spills or leaks.**
Absorb with sand or other inert absorbent and place in containers.
- 4. Notification procedures**
Caution: Contaminated surfaces may become slippery. Dispose of residue at an appropriate treatment and disposal facility in accordance with corresponding laws and regulations and product characteristics at the time of disposal. Contaminated packages should be as empty as possible.

7. HANDLING AND STORAGE

- 1. Precautions for safe handling**
Avoid skin contact. Do not allow this material to come into contact with eyes. Do not taste or ingest. Avoid prolonged exposure. Ensure adequate ventilation. Use appropriate personal protective equipment. Adhere to regulations for proper handling of chemicals. Eating, drinking, or smoking is prohibited while using. Thoroughly wash hands after handling. Wash contaminated clothing before reuse. Avoid release into the environment. Do not dispose of waste down the drain
- 2. Instructions for fire and explosion protection**
It is recommended to store in an area away from direct solar radiation, sparks, flames, or other sources of ignition.
- 3. Conditions for safe storage, including possible incompatibilities**
Technical requirements for warehouses and containers
Keep the original container tightly closed.

8. Exposure Controls/Personal Protection

1. Appropriate technical controls

There should be adequate general ventilation (typically 10 air changes per hour). The frequency of air renewal should correspond to the conditions. If possible, use exhaust hoods, local extraction systems, or other technical measures to keep exposure levels below recommended exposure limits. If no exposure limits have been established, the level of airborne contaminants should be maintained at an acceptable level. Eye wash facilities and emergency showers should be available when handling this product.

2. Exposure controls

Appropriate technical controls: The workplace should be well ventilated.

Personal protective equipment: Avoid all unnecessary exposure.

Hand protection: Wear protective gloves.

Eye protection: Safety goggles.

Respiratory protection: Wear an appropriate mask.

Additional information:

Do not eat, drink, or smoke during use.

General hygiene conditions:

Eating, drinking, or smoking is prohibited while using. Always follow good personal hygiene measures, such as washing after handling and before eating, drinking, and/or smoking. Routinely wash clothing and protective equipment to remove contaminants.

9. Physical and Chemical Properties.

Appearance, Physical Immiscible liquid, crystalline

Odor Characteristic

Color Turquoise

Density 1.0 g/mL 20°C

pH 3.5

Melting point/freezing point No data available

Boiling point Undetermined

Flash point No data available

Flammability No data available

Solubility No data available

Solubility No data available

10. Stability and Reactivity

1. Reactivity

The product is stable and non-reactive under normal conditions of use, storage, and transportation.

2. Chemical stability

Stable under normal conditions.

Incompatibility: Strong oxidizers, strong bases at high temperatures, strong acids.

3. Possibility of hazardous reactions

No hazardous reactions are known under normal conditions of use.

4. Conditions to avoid

Strong oxidizing agents. Accumulation of electrostatic charges.

Avoid temperatures above the flash point. Contact with incompatible materials.

5. Incompatible materials

Acids

6. Hazardous decomposition products

May generate fumes, carbon monoxide, carbon dioxide, and other products of incomplete combustion.

11. Toxicological information

Information on toxicological effects

Acute toxicity: Not reported.

Local effects: Not reported.

Chronic/long-term toxicity: Not reported.

12. Ecological information

1. Toxicity: No ecological information available
. for this product.

2. Persistence and degradability: No data available.

3. Bioaccumulation potential: . . No data available.

4. Soil adsorption: No data available.

5. Other adverse effects: No data available.

13. Disposal Considerations

Disposal methods: Treatment, storage, transportation and elimination must be performed in accordance with federal/state/province and local regulations. Dispose of containers in accordance with local, regional, national and international regulations.

Contaminated container: Empty containers should be moved to an approved disposal facility for recycling or elimination. Since empty containers can contain traces of the product, observe the warnings signaled on the label after emptying a container.

14. Transport Information

Not regulated as Dangerous/ Hazardous.

15. Regulatory Information

Regulations and legislation regarding safety, health, and the environment specific to the substance or mixture:

NOM – 018 – STPS – 2015, NMX-R-019-SCFI-2011 (The mixture is not classified as hazardous).

16. Other Information

The information is considered accurate but not exhaustive and will be used solely as guidance. The information is based on the current knowledge of the chemical substance or mixture and is applicable to appropriate safety precautions for the product.

Safety Data Sheet Disclaimer:

The information provided in this Safety Data Sheet (SDS) is based on data available to us regarding the product at the time of preparation. However, it does not encompass all possible situations or conditions of use. The user of this product is responsible for ensuring that it is used properly and in accordance with applicable regulations and guidelines.

This SDS is intended to provide guidance on the safe handling, storage, disposal, and transportation of the product. It does not replace the need for proper training, precautions, or personal protective equipment when handling the product.

The user assumes all risks associated with the use, storage, or disposal of this product. We disclaim any liability for damages or injuries resulting from the use of this product in a manner inconsistent with this SDS or the product labeling.

It is important to review the product labeling and any applicable regulations before using this product. If further information or clarification is needed, please contact us or consult a qualified professional.

Caviar Professional Hydrating Serum 70 mL. 2.36 fl.oz. Safety Data Sheet

1. Identification of the chemical substance, product, or mixture And of the supplier or manufacturer.

Type of product Cosmetic/ Hair care

Name of the Product: Caviar Professional Hydrating Serum 70 mL. 2.36 fl.oz.

CAS Number: N/A

Recommended Use: Cosmetic use. Hydrating serum, thermal protector, hair tip repairer and exceptional shine. Suitable for all hair types. Dye free.

Manufactured by: GRUPO RODEH S.A. DE C.V.

Address: Acueducto del Alto Lerma No.14 Col Acueducto. San Pedro Cholula, C.P. 52757. Estado de México. Mexico.

2. Composition / Information on ingredients

CHEMICAL IDENTITY OF THE SUBSTANCE	PRODUCT ID
Cyclopentasiloxane	No. CAS: 541-02- 6 EINECS N° 208-764-9
Cyclopentasiloxane / Dimethiconol	No. CAS: 541-02- 6 70131-67 -8
Polidimethylsiloxane	CAS: 63148-62-9
Panthenol	CAS: 81-13-0 Núm. EINECS: 201-327-3
Fragrance	No available data

3. Hazard(s) Identification

3.1 Hazard Classification:

Physical hazards: Flammable liquids, category 4

3.2 Signal elements, including precautionary statements and pictograms.

Hazard symbol: No symbol

Warning word: Caution

Hazard statement: Combustible liquid

Response: No data available

3.3 Precautionary statements.

Prevention: Keep away from heat, hot surfaces, sparks, open flames, and any other source of ignition. No smoking.

Response: Fight fire from a reasonable distance, taking the usual precautions.

4. First-Aid Measures

Inhalation In normal conditions and in accordance to the established use, this material is not expected to pose a risk by inhalation.

Eye Contact Immediately rinse eyes carefully with clean water. Continue rinsing for at least 15 minutes. Seek medical attention if irritation persists after rinsing.

Skin Contact Wash contact areas with soap and water. In case of skin irritation: Consult a doctor.

Ingestion DO NOT induce vomiting. Rinse mouth. Seek medical attention in case any symptoms appear..

5. Fire-Fighting Measure

Appropriate extinguishing measures: Dry water, Chemical foam, CO₂, Dry Chemical Powder, Water.

Inappropriate extinguishing media: Do not employ direct water streams as it may be spread or extend the fire..

Specific hazards of hazardous chemicals or mixtures: Flammable liquid. Hazardous Decomposition Products: formaldehyde, carbon oxides, and silica..

Recommendations for firefighting personnel

Special firefighting measures: Use dry water to cool containers.

Special protective equipment for firefighting personnel: Firefighters should use standard protective equipment and a positive pressure self-contained breathing apparatus (SCBA).
Flammable liquid.

6. Accidental Release Measures

1. Personal precautions, protective equipment, and emergency procedures.

Use personal protective equipment. Refer to Section 8 of the SDS for personal protective equipment.

2. Environmental precautions

Do not pour into drains, sewers, or natural waters.

3. Methods and materials for containment and cleaning of spills or leaks.

Absorb with sand or other inert absorbent and place in containers.

4. Notification procedures.

Caution: Contaminated surfaces may become slippery. Dispose of residue at an appropriate treatment and disposal facility in accordance with relevant laws and regulations and product characteristics at the time of disposal. Contaminated packages should be as empty as possible.

7. HANDLING AND STORAGE

1. Precautions for safe handling

Advice on safe handling

Precautions: There are no special precautions, except for good hygiene practices. In case of spillage, be careful of slippery floors and surfaces.

Hygiene measures: Always follow good personal hygiene measures, such as washing hands after handling and before eating, drinking and/or smoking. Routinely wash clothing and protective equipment to avoid contaminants.

2. Conditions for safe storage

Store in accordance with local, regional and national regulations. Keep the original container well closed in a dry and cool place.

8. Exposure Controls/Personal Protection

8.1. Control parameters

Professional Exposure Limit Values: There are no exposure limits assigned to any of the components.

8.2 Exposure control

Appropriate technical controls:

Employ preventive technical measures to reduce air contamination up to allowed levels. If no exposure limits have been established, the level of airborne contaminants should be maintained at an acceptable level.

Personal protective measures, such as personal protection equipment:

There should be adequate general ventilation if there is any risk of fume formation during manipulation. Protective individual equipment must be chosen in accordance with current regulations. This should be adapted to the product's conditions of use and by consulting the protective individual equipment manufacturer.

8.3 Hand/face protection:

Wear protective gloves.

8.4 Skin and body protection:

Use adequate protective garments.

8.5 Respiratory protection:

In general, protection is not required in normal use conditions and with adequate ventilation.

8.6 Thermal protection:

No specific recommendations.

9. Physical and Chemical Properties.

Physical Appearance Oily liquid

Odor Characteristic

Color Colorless

Density 1.00 g/mL 20°C

pH N/A

Melting point/freezing point No data available

Boiling point Undetermined

Flash point No data available

Flammability No data available

Solubility No data available

Solubility No data available

10. Stability and Reactivity

10.1 Chemical stability

The product is stable under normal conditions of use and storage.

10.2. Reactivity

No available data..

10.3 Possibility of hazardous reactions

No hazardous reactions will occur.

10.4 Conditions to avoid

No information available.

10.5 Incompatible materials

Strong oxidizing agents.

10.6 Hazardous decomposition products

Thermal decomposition or combustion may liberate carbon oxides, other gases or toxic vapors and amorphous silica.

11. Toxicological information

Information on toxicological effects

Acute toxicity: Not reported.
Local effects: Not reported.
Chronic/long-term toxicity: Not reported.

12. Ecological information

- 1. Toxicity:** No ecological information available
. for this product.
- 2. Persistence and degradability:** No data available.
- 3. Bioaccumulation potential:** . . No data available.
- 4. Soil adsorption:** No data available.
- 5. Other adverse effects:** No data available.

13. Disposal Considerations

Methods for residue treatment: The user of the product is reminded of the possible existence of local prescriptions in relation to the disposal, which are mandatory.

Disposal methods: Dispose of waste in an adequate treatment and disposal facility in accordance with corresponding laws and regulations and the characteristics of the product. The treatment and disposal must be specifically assessed for each product. Federal, state or municipal laws must be observed, among others, Law No. 12.305 of August 2, 2010 (National Solid Waste Policy). Preserve the product residue in its original packaging and properly closed. Disposal must be done according to the product.

Contaminated container: Empty containers should be as empty as possible. Eliminate waste at an adequate treatment and disposal facility in accordance with corresponding laws and regulations and the characteristics of the product. After cleaning, recycle or dispose of the product in an authorized facility.

14. Transport Information

This material is not subject to transport regulations.

15. Regulatory Information

U.S. Federal Regulations:

TSCA, article 12(b), Export notifications 40 CFR 707, subsection D: Not present or not present in the regulated amounts.

CERCLA Hazardous Substance List (40CFR 302.4): Not present or not present in the regulated amounts.

16. Other Information

The information is considered accurate but not exhaustive and will be used solely as guidance. The information is based on the current knowledge of the chemical substance or mixture and is applicable to appropriate safety precautions for the product.

Safety Data Sheet Disclaimer:

The information provided in this Safety Data Sheet (SDS) is based on data available to us regarding the product at the time of preparation. However, it does not encompass all possible situations or conditions of use. The user of this product is responsible for ensuring that it is used properly and in accordance with applicable regulations and guidelines.

This SDS is intended to provide guidance on the safe handling, storage, disposal, and transportation of the product. It does not replace the need for proper training, precautions, or personal protective equipment when handling the product.

The user assumes all risks associated with the use, storage, or disposal of this product. We disclaim any liability for damages or injuries resulting from the use of this product in a manner inconsistent with this SDS or the product labeling.

It is important to review the product labeling and any applicable regulations before using this product. If further information or clarification is needed, please contact us or consult a qualified professional.
