

## Caviar Professional Hydrating Serum 70 mL. 2.36 fl.oz. Safety Data Sheet

### 1. Identification of the chemical substance, product, or mixture And of the supplier or manufacturer.

**Type of product** Cosmetic/ Hair care

**Name of the Product:** Caviar Professional Hydrating Serum 70 mL. 2.36 fl.oz.

**CAS Number:** N/A

**Recommended Use:** Cosmetic use. Hydrating serum, thermal protector, hair tip repairer and exceptional shine. Suitable for all hair types. Dye free.

**Manufactured by:** GRUPO RODEH S.A. DE C.V.

**Address:** Acueducto del Alto Lerma No.14 Col Acueducto. San Pedro Cholula, C.P. 52757. Estado de México. Mexico.

### 2. Composition / Information on ingredients

CHEMICAL IDENTITY OF THE SUBSTANCE	PRODUCT ID
<b>Cyclopentasiloxane</b>	No. CAS: 541-02- 6 EINECS N° 208-764-9
<b>Cyclopentasiloxane / Dimethiconol</b>	No. CAS: 541-02- 6 70131-67 -8
<b>Polidimethylsiloxane</b>	CAS: 63148-62-9
<b>Panthenol</b>	CAS: 81-13-0 Núm. EINECS: 201-327-3
<b>Fragrance</b>	No available data

### 3. Hazard(s) Identification

#### 3.1 Hazard Classification:

Physical hazards: Flammable liquids, category 4

#### 3.2 Signal elements, including precautionary statements and pictograms.

Hazard symbol: No symbol

Warning word: Caution

Hazard statement: Combustible liquid

Response: No data available

#### 3.3 Precautionary statements.

Prevention: Keep away from heat, hot surfaces, sparks, open flames, and any other source of ignition. No smoking.

Response: Fight fire from a reasonable distance, taking the usual precautions.

### 4. First-Aid Measures

**Inhalation** In normal conditions and in accordance to the established use, this material is not expected to pose a risk by inhalation.

**Eye Contact** Immediately rinse eyes carefully with clean water. Continue rinsing for at least 15 minutes. Seek medical attention if irritation persists after rinsing.

**Skin Contact** Wash contact areas with soap and water. In case of skin irritation: Consult a doctor.

**Ingestion** DO NOT induce vomiting. Rinse mouth. Seek medical attention in case any symptoms appear..

## 5. Fire-Fighting Measure

**Appropriate extinguishing measures:** Dry water, Chemical foam, CO2, Dry Chemical Powder, Water.

**Inappropriate extinguishing media:** Do not employ direct water streams as it may be spread or extend the fire..

**Specific hazards of hazardous chemicals or mixtures:** Flammable liquid. Hazardous Decomposition Products: formaldehyde, carbon oxides, and silica..

### **Recommendations for firefighting personnel**

**Special firefighting measures:** Use dry water to cool containers.

**Special protective equipment for firefighting personnel:** Firefighters should use standard protective equipment and a positive pressure self-contained breathing apparatus (SCBA).  
Flammable liquid.

## 6. Accidental Release Measures

### **1. Personal precautions, protective equipment, and emergency procedures.**

Use personal protective equipment. Refer to Section 8 of the SDS for personal protective equipment.

### **2. Environmental precautions**

Do not pour into drains, sewers, or natural waters.

### **3. Methods and materials for containment and cleaning of spills or leaks.**

Absorb with sand or other inert absorbent and place in containers.

### **4. Notification procedures.**

Caution: Contaminated surfaces may become slippery. Dispose of residue at an appropriate treatment and disposal facility in accordance with relevant laws and regulations and product characteristics at the time of disposal. Contaminated packages should be as empty as possible.

## 7. HANDLING AND STORAGE

### 1. Precautions for safe handling

#### Advice on safe handling

**Precautions:** There are no special precautions, except for good hygiene practices. In case of spillage, be careful of slippery floors and surfaces.

**Hygiene measures:** Always follow good personal hygiene measures, such as washing hands after handling and before eating, drinking and/or smoking. Routinely wash clothing and protective equipment to avoid contaminants.

### 2. Conditions for safe storage

Store in accordance with local, regional and national regulations. Keep the original container well closed in a dry and cool place.

## 8. Exposure Controls/Personal Protection

### 8.1. Control parameters

Professional Exposure Limit Values: There are no exposure limits assigned to any of the components.

### 8.2 Exposure control

Appropriate technical controls:

Employ preventive technical measures to reduce air contamination up to allowed levels. If no exposure limits have been established, the level of airborne contaminants should be maintained at an acceptable level.

Personal protective measures, such as personal protection equipment:

There should be adequate general ventilation if there is any risk of fume formation during manipulation. Protective individual equipment must be chosen in accordance with current regulations. This should be adapted to the product's conditions of use and by consulting the protective individual equipment manufacturer.

### 8.3 Hand/face protection:

Wear protective gloves.

### 8.4 Skin and body protection:

Use adequate protective garments.

### 8.5 Respiratory protection:

In general, protection is not required in normal use conditions and with adequate ventilation.

### 8.6 Thermal protection:

No specific recommendations.

## 9. Physical and Chemical Properties.

**Physical Appearance** Oily liquid

**Odor** Characteristic

**Color** Colorless

**Density** 1.00 g/mL 20°C

**pH** N/A

**Melting point/freezing point** No data available

**Boiling point** Undetermined

**Flash point** No data available

**Flammability** No data available

**Solubility** No data available

**Solubility** No data available

## 10. Stability and Reactivity

### 10.1 Chemical stability

The product is stable under normal conditions of use and storage.

### 10.2. Reactivity

No available data..

### 10.3 Possibility of hazardous reactions

No hazardous reactions will occur.

### 10.4 Conditions to avoid

No information available.

### 10.5 Incompatible materials

Strong oxidizing agents.

### 10.6 Hazardous decomposition products

Thermal decomposition or combustion may liberate carbon oxides, other gases or toxic vapors and amorphous silica.

## 11. Toxicological information

### Information on toxicological effects

**Acute toxicity:** . . . . . Not reported.  
**Local effects:** . . . . . Not reported.  
**Chronic/long-term toxicity:** Not reported.

## 12. Ecological information

- 1. Toxicity:** . . . . . No ecological information available  
. . . . . for this product.
- 2. Persistence and degradability:** No data available.
- 3. Bioaccumulation potential:** . . No data available.
- 4. Soil adsorption:** . . . . . No data available.
- 5. Other adverse effects:** . . . . . No data available.

## 13. Disposal Considerations

**Methods for residue treatment:** The user of the product is reminded of the possible existence of local prescriptions in relation to the disposal, which are mandatory.

**Disposal methods:** Dispose of waste in an adequate treatment and disposal facility in accordance with corresponding laws and regulations and the characteristics of the product. The treatment and disposal must be specifically assessed for each product. Federal, state or municipal laws must be observed, among others, Law No. 12.305 of August 2, 2010 (National Solid Waste Policy). Preserve the product residue in its original packaging and properly closed. Disposal must be done according to the product.

**Contaminated container:** Empty containers should be as empty as possible. Eliminate waste at an adequate treatment and disposal facility in accordance with corresponding laws and regulations and the characteristics of the product. After cleaning, recycle or dispose of the product in an authorized facility.

## 14. Transport Information

**This material is not subject to transport regulations.**

## 15. Regulatory Information

U.S. Federal Regulations:

TSCA, article 12(b), Export notifications 40 CFR 707, subsection D: Not present or not present in the regulated amounts.

CERCLA Hazardous Substance List (40CFR 302.4): Not present or not present in the regulated amounts.

## 16. Other Information

The information is considered accurate but not exhaustive and will be used solely as guidance. The information is based on the current knowledge of the chemical substance or mixture and is applicable to appropriate safety precautions for the product.

## Safety Data Sheet Disclaimer:

The information provided in this Safety Data Sheet (SDS) is based on data available to us regarding the product at the time of preparation. However, it does not encompass all possible situations or conditions of use. The user of this product is responsible for ensuring that it is used properly and in accordance with applicable regulations and guidelines.

This SDS is intended to provide guidance on the safe handling, storage, disposal, and transportation of the product. It does not replace the need for proper training, precautions, or personal protective equipment when handling the product.

The user assumes all risks associated with the use, storage, or disposal of this product. We disclaim any liability for damages or injuries resulting from the use of this product in a manner inconsistent with this SDS or the product labeling.

It is important to review the product labeling and any applicable regulations before using this product. If further information or clarification is needed, please contact us or consult a qualified professional.
